

PAULINA BRZUCHALSKA

SOFTWARE TESTER

I have 10+ months of experience as a Software Tester in Agile environment. Just before, I worked as a HR/Support Manager in a start-up developing an app for US market. In December 2023, I got **ISTQB Certificate** and completed extensive Manual Tester course. Currently, I design test cases, review and refine user stories, execute manual tests for **web** and **iOS mobile apps**, perform cross-testing with **Browserstack**, conduct **API tests** using **Postman**, work with **relational DBs (Oracle SQL)**. I also know **HTML and CSS** and in the spare time, I am learning **JavaScript**, as I've always had a strong interest in websites builds, plus, my goal is to become an Automation Tester. Before joining IT, I used to be a General Manager in hospitality industry in the UK, that's why I stand out for exceptional communication skills, hands-on approach and great work ethic.

EXPERIENCE

SOFTWARE TESTER, Avenga/Roche, Wrocław, remote

Feb 2024 - Present

PROJECTS:

Intelligence Authoring Platform - intelligent creator of heavy-data reports and documents. Consists of complex online editor, table & graph builder with access to internal data; integrated with external platforms.

Phoenix Portal - portal consisting of advanced search engine to search, save, download medical documents, and variety of components to create several records and reports; enabling data sharing and collaboration. Integrated for example with LucidSpark or VeevaQuality Docs which is a document management system that enables the users to create, systematize and transfer the documents to Phoenix Portal.

MY CONTRIBUTION: **manual testing of web and iOS mobile, cross-browser and cross-device testing on Browserstack, designing test cases, reviewing and refining user stories, testing APIs with Postman, reporting/monitoring issues in Jira & HP Alm, E2E & regression testing, working with relational DBs, cooperating with the rest of the QA team to analyse and improve testing processes.**

PrestaShop - non-commercial e-commerce project where I began my career as a Software Tester in late 2023. I had an opportunity to test an online store that was built on the PrestaShop platform.

HR and SUPPORT MANAGER @ FLIP, Warsaw, remote

Feb 2023 - Feb 2024

IT & Start-up environment - managing **Jira, Confluence, Toggl** and **App Store Connect as an Admin. Writing & maintaining technical documentation.** Head of all administrative/HR tasks like employee hiring - Onboarding & Offboarding, processing invoices, inventory controlling, logistics & orders, holiday management, employee perks & initiatives; collaboration with stakeholders; supporting TLs and other team members in a daily communication; organising corporate events for 100+ team.

GENERAL MANAGER @ HEARTWOOD COLLECTION, Cheltenham

Nov 2021 - Nov 2022 / Promotion

P&L management, writing forecasts, budgets and **cost controlling, analysing and maximizing sales & revenue, preparing reports & data analysis (Tableau)**, coordinating and overseeing all operations - rotas, stock taking and processing, hiring, training and developing team members to senior positions; negotiating and closing contracts; head of marketing campaigns, creating content for social media, responsible for all HR processes.
